PROFESSIONAL SUMMARY

Penultimate-year Finance student and founder of Tek Monkeys, a Brisbane IT and compliance consultancy servicing a private medical practice. Ship production TypeScript applications on Cloudflare edge infrastructure. Combine commercial finance training with hands-on technical delivery in a regulated environment; operate daily within Privacy Act 1988, Australian Privacy Principles, and My Health Records Act 2012 obligations.

EDUCATION

Bachelor of Advanced Business (Honours) — Finance Feb 2023 – Dec 2027 (Expected)
The University of Queensland, Brisbane, QLD

- Cumulative GPA: 5.25/7.00 | Recent GPA (Years 2-3): 6.25/7.00 (Distinction average) | ATAR: 90.4 / 99.95
- Relevant Coursework:** Machine Learning for Business (BSAN2205), Data Visualisation (BSAN3204), Business Law (LAWS1100), Corporate Finance, Asset Pricing, Derivatives & Risk Management, Management Accounting

EXPERIENCE

Founder & IT Consultant, Tek Monkeys — Brisbane, QLD 2024 – Present

- Founded and operate an IT and compliance consultancy servicing a Brisbane private medical practice; deliver user support, system maintenance, and infrastructure management across a live clinical environment.
- Operate daily within Privacy Act 1988, Australian Privacy Principles, and My Health Records Act 2012 obligations; align practice workflows with compliance requirements.
- Currently scoping an AI-assisted billing verification tool for voice-dictated clinical billing, designed as compliance-aware assistive review with clinician sign-off aligned to Medicare Benefits Schedule requirements.

Food & Beverage Attendant, Emirates Leisure Retail (Hudsons) — Brisbane Airport Jan 2023 – Present

- Manage high-volume front-of-house operations in a regulated airport environment; handle escalated customer situations with composure and judgement across long shifts in a fast-paced setting.

TECHNICAL PROJECTS

Monkey Barrel — Real-Time Multiplayer Web Arcade Platform 2025 – Present
TypeScript | SvelteKit 5 (runes mode) | Cloudflare Workers | Durable Objects | D1 | Web Crypto API | Bun

- Built a real-time multiplayer arcade platform from scratch, with synchronised game state coordinated through Cloudflare Durable Objects on edge infrastructure.
- Implemented games including Impostor, President, Chase the Queen of Spades, Poker, and Wavelength, with custom bot player support and Web Crypto API authentication.

One Percent — Privacy-First Self-Improvement Web App 2025 – Present
TypeScript | SvelteKit | On-device storage | Web Audio API | LLM integration

- Built a privacy-first habit and self-improvement app with on-device data persistence; no user data leaves the browser.
- Features include XP and leveling, streak tracking, hexagonal skill tree, Web Audio meditation module, and an optional LLM companion with strict client-side data controls.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python (pandas), SQL, R
Frameworks & Runtimes: SvelteKit 5, Svelte, Node.js, Bun, R/Shiny, tidyverse
Platforms & Infrastructure: Cloudflare Workers, Durable Objects, D1, Web Crypto API, Web Audio API
AI & Data: LLM API integration (OpenAI, Anthropic), machine learning fundamentals, data visualisation, interactive dashboards
Finance: Excel financial modelling (DCF, sensitivity analysis), Bloomberg Terminal (basic), derivatives pricing
Applied Compliance: Privacy Act 1988, Australian Privacy Principles, My Health Records Act 2012, Health Insurance Act 1973 (Medicare billing)
